DETAILED ACTION

1. Claims 25 and 26 have been added.
2. Please note that the examiner assigned to this application has changed.
3. Upon review and reconsideration, the restriction requirement of Paper No. 5, mailed January 7, 2002 is withdrawn.

Election/Restriction

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, 25 and 26, drawn to a method of identifying a putative cancer therapeutic comprising identifying a uniquely expressed or over expressed protein and determining if said protein is immunogenic, classified in class 435, subclass 4.
 - II. Claims 8-24, drawn to a method of inducing an immune response against a target antigen comprising administering to a subject a protein which is uniquely expressed or over expressed in a target cell, whereby an immune response is mounted against the target cell, classified in class 424, subclass 277.1.
5. The inventions are distinct, each from the other because of the following reasons:
The methods of Groups I and II differ in the method objectives, method steps and parameters and in the reagents used.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and because the searches required for the groups are not co-extensive, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1642

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
